Options...

Check by text input ☐ css

```
{% extends 'base.html' %}
{% block content %}
{% load static %}
<main>
  <div class="container">
    <article>
      <!-- Page Title -->
      <header class="row page-title mb-4">
        <div class="col-12">
          <h1 class="black-shadow text-center">Why do you need a bag ?
</h1>
        </div>
      </header>
      <!-- Description of site's objective -->
      <div class="row">
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1. **Warning** This document appears to be written in English. Consider adding

`lang="en"` (or variant) to the `<html>` start tag.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↔{% b1
```

For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).

2. **Error** Non-space characters found without seeing a doctype first. Expected

`<!DOCTYPE html>`.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↔{% b1
```

3. **Error** Element `head` is missing a required instance of child element `title`.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↵{% b1
```

Content model for element `head`:

If the document is [an iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a `title` element and no more than one is a `base` element.

Otherwise: One or more elements of [metadata content](#), of which exactly one is a `title` element and no more than one is a `base` element.

Document checking completed.

16.                     What does the end of the world mean?<br>↵
17.                     When we think of this expression, we usually think of some
apocalyptic event destroying humanity.<br>↵
18.                     In Hollywood films, it is usually a zombie-attack,↵
19.                     an alien-invasion or some evil master plan built by a mad
genius.<br>↵
20.                     In mythologies we tell ourselves since centuries, it is a
world-wide catastrophe generally :↵
21.                     eternal ice, flames eating up the world, or the sky falling
down on us.<br>↵
22.                     In the context of our modern age, for most people, the end
of the world means↵
23.                     a nuclear war or a deadly pandemic which destroys our
current civilisation.<br>↵
24.                     Though this latter one is a quite real threat to fear (and
of course, the other possibilites too,↵
25.                     with respect to your belief or faith), the end of someone's
world does not necessarily means↵
26.                     the end of the whole world.<br>↵
27.                     <br>↵
28.                     One's world can end with en event counted as small or local
on global scale, but on personal scale,↵
29.                     it can mean the end of all one knows. A fire, hurricane,
earth-quake or flood destroying one's home,↵
30.                     a desperate run-away from an abusive relationship, or a war
raging in one's country can make the world↵
31.                     suddenly a big and cold pace where you may get help, but in
the end, you have to depend on yourself.<br>↵
32.                     In these situations, one may or may not have a chance to
run, but if there is a way to escape, then it↵
```

```
33.      worth to make it as easy as possible - and this is where a
bag packed with all the most necessary items,
34.      what you can just grab before leaving, can make a
difference.<br>
35.      <br>
36.      <strong>MyAPPocalypse</strong><br>
37.      helps to plan a bag with all the necessary items based on
your ideal bag size,
38.      the local conditions (climate? landscape? available food,
water or infrastructure?) and your possible
39.      special company (child? elder person? pet?).<br>
40.      It also provides links toward Amazon to see the buying
options if you wish to realize your bag once.<br>
41.      You also have the possibility to leave your feedback about
where to improve the application, and to
42.      recommend items you miss from the list of available
options.<br>
43.      <br>
44.      </p>
45.      </div>
46.      <footer>
